## A Symphony of Light and Movement!

This Golden Week, projection mapping and illumination will transform the Hakusan Park and the banks of the Shinano River into a nighttime world of beauty and wonder. Paired with modern dance and free music performances by artists from Niigata and East Asia, the left bank of the Shinano River from the Bandai Bridge all the way to the Ryuto Ohashi Bridge and the Niigata City History Museum will come alive with a symphony of light and movement.
